Air Pollution Control (3rd Edition) By C. David Cooper, F. C. Alley

Since the First Edition appeared, Air Pollution Control: A Design Approach has become the leading air pollution control text on the strengths of good writing, comprehensive coverage, an emphasis on design, and excellent real-world examples. The Third Edition continues this tradition of excellence, incorporating new and updated information throughout the text while retaining the topical organization and features that have made it an invaluable learning tool for instructors and students alike. The Third Edition successfully achieves two main objectives. First, it presents detailed information about air pollution and its control. Causes, sources, effects, and regulation of air pollution are discussed, as well as the economic analysis necessary for efficient and effective control of air pollution. Second, and perhaps more importantly, it provides formal design training for engineering students. Written for engineers from a variety of disciplines, this text offers numerous diagrams, examples, and end-of-chapter problems emphasizing key concepts and design techniques. Outstanding features include: 1) two new chapters: Biofiltration and Indoor Air Quality; 2) current cost estimation data and techniques; 3) updated air quality trends; 4) 31 sample P. E. Examination problems with worked-out solutions; and 5) new end-of-chapter problems in every chapter.

Editorial Review

From the Publisher

The American Academy of Environmental Engineers recommends *Air Pollution Control* for environmental engineers studying for the Principles and Practice of Engineering Examination.

Titles of related interest from Waveland Press: Bishop, *Pollution Prevention: Fundamentals and Practice* (ISBN 9781577663485); de Nevers, *Air Pollution Control Engineering*, Second Edition (ISBN 9781577666745); and Cooper et al., *Foundations of Environmental Engineering* (ISBN 9781577660484).

Users Review

From reader reviews:

Toni Williams:

The book Air Pollution Control (3rd Edition) make one feel enjoy for your spare time. You should use to make your capable much more increase. Book can to be your best friend when you getting pressure or having big problem together with your subject. If you can make reading a book Air Pollution Control (3rd Edition) to get your habit, you can get a lot more advantages, like add your personal capable, increase your knowledge about some or all subjects. You can know everything if you like available and read a reserve Air Pollution Control (3rd Edition). Kinds of book are a lot of. It means that, science e-book or encyclopedia or some others. So , how do you think about this e-book?

Nathanael Ma:

Information is provisions for anyone to get better life, information nowadays can get by anyone in everywhere. The information can be a understanding or any news even restricted. What people must be consider while those information which is within the former life are challenging to be find than now's taking seriously which one would work to believe or which one the actual resource are convinced. If you receive the unstable resource then you understand it as your main information it will have huge disadvantage for you. All those possibilities will not happen in you if you take Air Pollution Control (3rd Edition) as the daily resource information.

Tara Gamboa:

Reading a book tends to be new life style in this particular era globalization. With reading you can get a lot of information that may give you benefit in your life. Using book everyone in this world may share their idea. Books can also inspire a lot of people. A lot of author can inspire their own reader with their story as well as their experience. Not only the storyline that share in the guides. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors these days always try to improve their talent in writing, they also doing some study before they write for their book. One of them is this Air Pollution Control (3rd Edition).

Frank Ouellette:

Do you have something that suits you such as book? The e-book lovers usually prefer to opt for book like comic, brief story and the biggest you are novel. Now, why not attempting Air Pollution Control (3rd Edition) that give your pleasure preference will be satisfied by simply reading this book. Reading addiction all over the world can be said as the means for people to know world much better then how they react towards the world. It can't be explained constantly that reading behavior only for the geeky man but for all of you who wants to be success person. So , for all of you who want to start examining as your good habit, you could pick Air Pollution Control (3rd Edition) become your own starter.
