## **Editorial Review**

### **Review**

"In summary this publication would benefit educators of nurses, midwives and other healthcare students in helping a student to follow a logical and comprehensive patient assessment, whether of an older adult, a patient with medical or surgical needs, a child or pregnant woman. The student would also see clearly how the inter-disciplinary team work together to provide first class holistic care." Nurse Education in Practice, February 2009

## **Users Review**

### **From reader reviews:**

#### **Carolyn Baird:**

Have you spare time for any day? What do you do when you have more or little spare time? Yeah, you can choose the suitable activity intended for spend your time.
