Sams Teach Yourself C++ in 10 Minutes (2nd Edition) By Jesse Liberty, Mark Cashman

C++ remains a popular object-oriented language and *Sams Teach Yourself C++ in 10 Minutes* provides a quick, focused way to learn the language. The author assumes no prior programming experience and begins by showing the reader the absolute fundamentals of what a program is and guides the readers to write their very first program. It covers all the important topics in C++ and provides a solid foundation on which to build programming knowledge. The material is reorganized to fit proven teaching techniques with about thirty percent of the text rewritten. All examples are new to comply with the current ANSI C++ standard and make them completely compatible with all popular compilers.
