That Old-Time Religion: The Story of Religious Foundations By Jordan Maxwell

This book shows how many Christian beliefs could be far older than what we have suspected. It gives a complete run-down of the stellar, lunar, and solar evolution of our religious systems and contains new, exhaustive research on the gods and our beliefs. The book's main theme centers on the work of Jordan Maxwell. He has become widely known as one of the world's foremost experts on early mythological systems and their influence on both ancient and modern religions. The book also includes an interview with Dr. Alan Snow, referred to by Sydney Ohmarr as the "world's greatest authority on astrology and the Dead Sea Scrolls." Paul Tice also contributes three chapters, the last one explaining how we should revert to the original teachings of religious founders, including Jesus, before they had become corrupted by "organized religion." This book is illustrated, organized, and very comprehensive. Educate yourself with clear documented proof, and prepare to have your belief system shattered!
