Editorial Review

From Publishers Weekly

Tom Builder's dream is to build a cathedral, but in the meantime, he must scrounge about to find a lord that will hire him. His search pulls him and his family into the politics of 12th-century England, as different lords vie to gain control of the throne in the wake of the recently deceased king. Prior Phillip, a man raised in the monastery since childhood, also finds himself drafted into the brewing storm as he must protect the interests of a declining church. Richard E. Grant seduces readers early on with a soft and deliberate voice that is like a loud whisper. However, his full range quickly reveals itself as he delves into characters with animated voices that exert their true essence. Even throughout the narrative, Grant musters a lively voice that imbues energy into the story. The only shortcoming is that the abridgment of Follett's 1989 novel proves to be too choppy. Though the story appears complete, there still remain abrupt moments throughout the tale. Penguin Audio's unabridged version is read by John Lee and runs 41 hours. (Dec.)

From Library Journal

A radical departure from Follett's novels of international suspense and intrigue, this chronicles the vicissitudes of a prior, his master builder, and their community as they struggle to build a cathedral and protect themselves during the tumultuous 12th century, when the empress Maud and Stephen are fighting for the crown of England after the death of Henry I. The plot is less tightly controlled than those in Follett's contemporary works, and despite the wealth of historical detail, especially concerning architecture and construction, much of the language as well as the psychology of the characters and their relationships remains firmly rooted in the 20th century. This will appeal more to lovers of exciting adventure stories than true devotees of historical fiction. Literary Guild dual main selection.
