Modern Alkaloids: Structure, Isolation, Synthesis, and Biology From Brand: Wiley-VCH

This book presents all important aspects of modern alkaloid chemistry, making it the only work of its kind to offer up-to-date and comprehensive coverage. While the first part concentrates on the structure and biology of bioactive alkaloids, the second one analyzes new trends in alkaloid isolation and structure elucidation, as well as in alkaloid synthesis and biosynthesis.

A must for biochemists, organic, natural products, and medicinal chemists, as well as pharmacologists, pharmacutists, and those working in the pharmaceutical industry.

Editorial Review

Review

"A very well developed textThe book would be of interest to graduate students and specifically to researchers in pharmacognosy and medicinal chemistry. I highly recommend this text." (*Journal of Medicinal Chemistry*, February 2008)

"...the book fulfills its titled objectives and is a useful collection of reviews." (*Journal of the American Chemical Society*, August 27, 2008)

"This book uses the interplay between the chemistry and biology of alkaloids...to weave an excellent picture of the current state-of-the-art in this field." (*Chemistry & Industry*, May 2008)

"I recommend Modern Alkaloids warmly to everybody who is interested in natural product chemistry." (*Angewandte Chemie*, 2008-47/15)

"An interesting book which achieves its purpose of surveying representative examples of the broad and healthy area of current active alkaloid research" (*Chemistry World*, May 2008)

About the Author

Ernesto Fattorusso was assistant professor at the University of Naples (1963-75); in 1975 he became full Professor of Organic Chemistry at the Faculty of Science. In 1980 he moved to the Faculty of Pharmacy, where he was elected Dean twice. In 2002 he won the A. Quilico Award (Societ? Chimica Italiana) and in 2004 the P. Scheuer Award (Akademie of Erfurt). He has published more than 300 research papers.

Orazio Taglialatela Scafati got the Ph.D. in "Bioactive Natural Products" in 1997, under the supervision of Prof. Fattorusso. Currently, he is Associate Professor in Organic Chemistry, Faculty of Pharmacy, University of Naples "Federico II".

His research interests deal with isolation, structure elucidation and semisynthetic transformations of bioactive secondary metabolites from marine invertebrates and terrestrial plants. He is the author of 45 research papers and the editor of the book "Flavour and Fragrance Chemistry".

Users Review

From reader reviews:

Gertrude Barrett:

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite guide and reading a reserve. Beside you can solve your problem; you can add your knowledge by the publication entitled Modern Alkaloids: Structure, Isolation, Synthesis, and Biology. Try to stumble through book Modern Alkaloids: Structure, Isolation, Synthesis, and Biology as your friend. It means that it can be your friend when you really feel alone and beside that of course make you smarter than before. Yeah, it is very fortunate for you. The book makes you considerably more confident because you can know every thing by the book. So, we should make new experience along with knowledge with this book.

Juan Carrillo:

Spent a free time for you to be fun activity to complete! A lot of people spent their leisure time with their family, or their particular friends. Usually they doing activity like watching television, likely to beach, or picnic inside park. They actually doing ditto every week. Do you feel it? Will you something different to fill your own free time/ holiday? Could possibly be reading a book can be option to fill your free of charge time/ holiday. The first thing you ask may be what kinds of reserve that you should read. If you want to try out look for book, may be the guide untitled Modern Alkaloids: Structure, Isolation, Synthesis, and Biology can be excellent book to read. May be it is usually best activity to you.

Jean Cunningham:

Does one one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Try to pick one book that you never know the inside because don't evaluate book by its handle may doesn't work is difficult job because you are afraid that the inside maybe not since fantastic as in the outside appear likes. Maybe you answer is usually Modern Alkaloids: Structure, Isolation, Synthesis, and Biology why because the amazing cover that make you consider in regards to the content will not disappoint anyone. The inside or content is definitely fantastic as the outside as well as cover. Your reading 6th sense will directly assist you to pick up this book.

Roland Collins:

The book untitled Modern Alkaloids: Structure, Isolation, Synthesis, and Biology contain a lot of information on the item. The writer explains your girlfriend idea with easy means. The language is very clear to see all the people, so do not necessarily worry, you can easy to read that. The book was compiled by famous author. The author provides you in the new period of literary works. You can actually read this book because you can please read on your smart phone, or device, so you can read the book throughout anywhere and anytime. In a situation you wish to purchase the e-book, you can start their official web-site along with order it. Have a nice examine.
