Editorial Review

From Publishers Weekly

Starred Review. At the start of bestseller Sandford's superb 20th Lucas Davenport thriller (after *Wicked Prey*), the getaway vehicle from a botched early morning robbery, which results in a pharmacy employee's death, almost collides with the car driven by Lucas's surgeon wife, Weather Karkinnen. Weather, who was on her way to work at the Minnesota Medical Research Center, becomes a key witness. Sandford masterfully handles both sides of the equation as the thieves—planner Lyle Mack, his brother, Joe, and their henchmen—work to cover their crime. The investigation belongs to Minneapolis deputy chief Marcy Sherrill, but Lucas of the Minnesota Bureau of Criminal Apprehension pulls out all the stops to protect his wife. Sandford creates additional drama throughout as Weather and a skilled team of doctors perform an operation to separate twins joined at the skull. Sharply drawn characters, intricate plotting, and smooth dialogue make this a sure-fire winner. *500,000 first printing; author tour. (May)*

It was an inside job, and it should have been easy. Rob the pharmacy at Minneapolis' largest hospital: in, out, wait till things cool down, and then sell the drugs for a half million or so. But the old man had to be a hero. Who knew he'd be on blood thinners and die after he was kicked? A robbery turned murder means Lucas Davenport and his Bureau of Criminal Apprehension team are called in to assist the investigation. There's another element to the case for Davenport: his wife, Weather, a surgeon at the hospital, may be able to identify one of the killers. The case starts to escalate. An attempt is made on Weather's life. The bodies of two motorcycle gang members are found in a rural area. Davenport guesses the gang is imploding from the pressure and murdering its members. Weather, under 24-hour guard, is part of a surgical team working to separate conjoined twins in a procedure that's captured the attention of the world's media. Meanwhile, Davenport and his team keep finding bodies of likely robbers but can't seem to isolate either the brains behind the theft or the hospital insider who pointed them at the pharmacy. The twenty-second Prey novel includes most of the elements readers expect: sharp plot, snappy dialogue, and believable action, but the background playfulness and gallows humor that usually fill in the gaps are in short supply. But hey, that's nitpicking. On balance, this is another fine entry in a wildly popular series. --Wes Lukowsky

Review

'Superb...sharply drawn characters, intricate plotting and smooth dialogue make this a sure fire winner'
Publishers Weekly 'Crime writer John Sandford is one of the best around' Sun 'John Sandford ... is a master when it comes to thrillers' Independent
