Building Automation: Communication systems with EIB/KNX, LON and BACnet (Signals and Communication Technology) By Hermann Merz, Thomas Hansemann, Christof Hübner

Modern buildings are increasingly equipped with actuators and sensors, communication, visualization and control systems. This textbook provides an overview of industrial communication systems and stimulates a basic understanding of network and bus systems for the automation of buildings.

After an introduction to EIB/KNX, LON und BACnet technologies, the authors illustrate how these systems can be utilized for specific applications, like air conditioning or illumination. This book assumes only a basic knowledge of mathematics and thanks to its simple explanations and many examples is ideal for students and professional engineers who require practical solutions.

Editorial Review

From the Back Cover

Building Automation

Modern buildings are increasingly equipped with actuators and sensors, communication, visualization and control systems. This textbook provides an overview of industrial communication systems and stimulates a basic understanding of network and bus systems for the automation of buildings.

After an introduction to EIB/KNX, LON und BACnet technologies, the authors illustrate how these systems can be utilized for specific applications, like air conditioning or illumination. This book assumes only a basic knowledge of mathematics and thanks to its simple explanations and many examples is ideal for students and professional engineers who require practical solutions.

Users Review

From reader reviews:

Michael Albin:

Book is usually written, printed, or highlighted for everything. You can realize everything you want by a guide. Book has a different type. We all know that that book is important matter to bring us around the world. Next to that you can your reading talent was fluently. A reserve Building Automation: Communication systems with EIB/KNX, LON and BACnet (Signals and Communication Technology) will make you to possibly be smarter. You can feel a lot more confidence if you can know about every thing. But some of you think that will open or reading a book make you bored. It isn't make you fun. Why they are often thought like that? Have you seeking best book or appropriate book with you?

Denise Dennis:

The reason why? Because this Building Automation: Communication systems with EIB/KNX, LON and BACnet (Signals and Communication Technology) is an unordinary book that the inside of the reserve waiting for you to snap this but latter it will distress you with the secret it inside. Reading this book close to it was fantastic author who write the book in such awesome way makes the content inside of easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you because of not hesitating having this anymore or you going to regret it. This book will give you a lot of rewards than the other book get such as help improving your ability and your critical thinking means. So , still want to hold off having that book? If I have been you I will go to the publication store hurriedly.

Marie Slaughter:

You are able to spend your free time to read this book this publication. This Building Automation: Communication systems with EIB/KNX, LON and BACnet (Signals and Communication Technology) is simple to bring you can read it in the area, in the beach, train along with soon. If you did not include much space to bring the particular printed book, you can buy the actual e-book. It is make you much easier to read it. You can save typically the book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

Ricky Bodkin:

Do you like reading a book? Confuse to looking for your preferred book? Or your book ended up being rare? Why so many problem for the book? But just about any people feel that they enjoy for reading. Some people likes studying, not only science book but also novel and Building Automation: Communication systems with EIB/KNX, LON and BACnet (Signals and Communication Technology) as well as others sources were given information for you. After you know how the fantastic a book, you feel desire to read more and more. Science publication was created for teacher or maybe students especially. Those guides are helping them to increase their knowledge. In different case, beside science reserve, any other book likes Building Automation: Communication systems with EIB/KNX, LON and BACnet (Signals and Communication Technology) to make your spare time far more colorful. Many types of book like this one.
