## Editorial Review

### Review

What her account suggests is that the most damaging aspect of contemporary French Hegel reception is that its highly critical emphasis on the metaphysical issues of identity, rationality, and historical closure have so obscured Hegel's original idealism, especially his theory of reflection, that the rejection of Hegel brings with it, with a kind of dialectical necessity, the return of the "pre"-Hegelian, even the pre-Kantian, a kind of naive hope for 'immediacy' and, paradoxically, a commitment to a realism that the idealist tradition was to have finished off.
