### Essential Human Virology By Jennifer Louten

*Essential Human Virology* is written for the undergraduate level with case studies integrated into each chapter. The structure and classification of viruses will be covered, as well as virus transmission and virus replication strategies based upon type of viral nucleic acid. Several chapters will focus on notable and recognizable viruses and the diseases caused by them, including influenza, HIV, hepatitis viruses, poliovirus, herpesviruses, and emerging and dangerous viruses.

Additionally, how viruses cause disease, or pathogenesis, will be highlighted during the discussion of each virus family, and a chapter on the immune response to viruses will be included. Further, research laboratory assays and viral diagnosis assays will be discussed, as will vaccines, anti-viral drugs, gene therapy, and the beneficial uses of viruses. By focusing on general virology principles, current and future technologies, familiar human viruses, and the effects of these viruses on humans, this textbook will provide a solid foundation in virology while keeping the interest of undergraduate students.

- Focuses on the human diseases and cellular pathology that viruses cause
- Highlights current and cutting-edge technology and associated issues
- Presents real case studies and current news highlights in each chapter
- Features dynamic illustrations, chapter assessment questions, key terms, and summary of concepts, as well as an instructor website with lecture slides, test bank, and recommended activities

### **Editorial Review**

#### **About the Author**

Jennifer Louten received her doctoral degree from Brown University Medical School, where she investigated the cellular targets of infection and the induction of type 1 interferons following infection with lymphocytic choriomeningitis virus. Dr. Louten is currently an associate professor of biology at Kennesaw State University, where she has served as a Teaching Fellow and developed courses in virology, biotechnology, immunology, and cell culture techniques. She is presently the biotechnology program coordinator and the director of a scholarship program sponsored by a National Science Foundation grant. She is the recipient of a Kennesaw State University Outstanding Early Career Faculty Award and the Student Government Association's Faculty of the Year Award. Before becoming a professor, Dr. Louten performed research in drug discovery at Schering-Plough Biopharma (currently Merck Research Laboratories). She received her Bachelor of Science in biotechnology from the Rochester Institute of Technology.

### **Users Review**

#### **From reader reviews:**

##### **Chester Walters:**

Why don't make it to become your habit? Right now, try to ready your time to do the important act, like looking for your favorite publication and reading a e-book. Beside you can solve your short lived problem; you can add your knowledge by the book entitled Essential Human Virology. Try to stumble through book Essential Human Virology as your pal. It means that it can to become your friend when you truly feel alone and beside associated with course make you smarter than previously. Yeah, it is very fortuned to suit your needs. The book makes you far more confidence because you can know almost everything by the book. So , we need to make new experience in addition to knowledge with this book.

##### **Marvin Seto:**

Are you kind of hectic person, only have 10 or even 15 minute in your day time to upgrading your mind talent or thinking skill even analytical thinking? Then you have problem with the book than can satisfy your short period of time to read it because this time you only find book that need more time to be examine. Essential Human Virology can be your answer given it can be read by anyone who have those short spare time problems.

##### **Albert Fragoso:**

Within this era which is the greater person or who has ability to do something more are more valuable than other. Do you want to become one of it? It is just simple way to have that. What you are related is just spending your time not much but quite enough to enjoy a look at some books. One of several books in the top collection in your reading list is Essential Human Virology. This book which is qualified as The Hungry Hillsides can get you closer in turning out to be precious person. By looking right up and review this book you can get many advantages.

**Vincent Newton:**

As a pupil exactly feel bored to help reading. If their teacher questioned them to go to the library or even make summary for some guide, they are complained. Just minor students that has reading's heart and soul or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading seriously. Any students feel that reading through is not important, boring and can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Essential Human Virology can make you experience more interested to read.
