## Lighting for Portrait Photography By Steve Bavister

Great portraits are more than technique. They demand a broad range of skills...and a way with people. *Lighting for Portrait Photography* looks at the work of top photographers who reveal exactly how their finest portraits were created, and the beautiful full-color examples throughout the book show famous and unknown faces in commercial, editorial, and personal work. Many different styles of portraiture are covered, from simple set-ups using one light to more advanced multi-light plans. This fully revised edition of a popular original includes completely new lighting diagrams and the latest equipment and techniques.

- \* Great examples and explanations from top photographers
- \* Portraits of the famous and the not-so-famous--and how each image was created
- \* Fully revised and updated with new lighting diagrams and more
