Sabotage in the Sky: A Heated Rivalry, a Heated Romance, and High-flying Danger (Military & War Short Stories Collection) By L. Ron Hubbard

Bill Trevillian is as ruggedly handsome as he is bold and brave. Kip Lee is as strikingly beautiful as she is fiery and fearless. And they've got something in common. They're both test pilots . . . for rival aviation companies. Put them together and, like a young Tracy and Hepburn, sparks are bound to fly.

The Second World War is raging in Europe, and England and France are looking to America for a fighter plane to match up with the superior Nazi Messerschmitt. The competition between Bill and Kip is fierce, and the stakes are stratospheric. Because there's an added element in the mix: a deadly saboteur.

People say all's fair in love and war, but when there's Sabotage in the Sky, the flight path from heated rivalry to heated romance could lead Bill and Kip to crash and burn.

“If you crave air adventure written by an airman who knows what a hot plane can do, don't miss Sabotage in the Sky,” wrote the editor introducing the story in 1940. And Hubbard's knowledge proved prophetic—unknown to the FBI, the German intelligence service, the Abwehr, was actively gathering intelligence about American military aircraft designs and manufacturing. The author also had personal aviation experience, earning a reputation as a daredevil pilot barnstorming across the United States, landing in farmer's fields and skimming over the top of telephone wires—experiences he put to good use as a well-known aviation correspondent and one of the most accomplished writers of aviation adventure.

Editorial Review

From Publishers Weekly

Another slim Hubbard reissue—this one originally appeared in 1940—offers an example of his pulpy men's adventure fiction. Nazi Col. Erich Von Straub is dispatched to the United States to infiltrate the aviation industry as a saboteur under the guise of a whiz on engines. • Two U.S. aerospace companies, Beryl-Cannard Airlines and Lee Aircraft, are competing to design planes for the French and British that can dominate the fierce Messerschmitt 118D. Little does Von Straub know he's walking into a budding romance between competing test pilots Bill and Kip, who accuse each other of Von Straub's handiwork as their relationship blossoms. Banged out fast, the unpolished prose relies on the fast plot and colorful aviation patois to carry it. It does the pulpy thing just fine. (*July*)

". . . a huge capacity for big adventure, big color, very dramatic colorful locales, urgent suspense and fascinating characters with fascinating histories." —Tim Powers

"L. Ron Hubbard was a skilled and prolific author of the legendary 'golden age' of pulp fiction magazines. Now Galaxy Press is reprinting those long out of print Hubbard action/adventure tales as part of their 'Stories from the Golden Age' series. *Sabotage in the Sky* is one Hubbard's stories based on then advanced technologies of aircraft and powered flight and was originally published in 1940. It has everything from a love interest, to ruthless competition within the aviation industry that includes the prospect of Nazi sabotage, riveting cliff-hanger action, and the colorful aviation patois of the period. Also highly recommended for aviation action/adventure pulp fiction fans are such other newly published Galaxy Press titles by L. Ron Hubbard as *On Blazing Wings*; *Red Death Over China*; *Sky Birds Dare!*; and *Trouble on His Wings*."
