Chocolate, Cocoa and Confectionery: Science and Technology By Bernard Minifie

The second edition of this book achieved worldwide recognition within the chocolate and confectionery industry. I was pressed to prepare the third edition to include modern developments in machinery, production, and packaging. This has been a formidable task and has taken longer than anticipated. Students still require, in one book, descriptions of the fundamental principles of the industry as well as an insight into modern methods. Therefore, parts of the previous edition describing basic technology have been retained, with minor alterations where necessary. With over fifty years' experience in the industry and the past eighteen years working as an author, lecturer, and consultant, I have collected a great deal of useful information. Visits to trade exhibitions and to manufacturers of raw materials and machinery in many parts of the world have been very valuable. Much research and reading have been necessary to prepare for teaching and lecturing at various colleges, seminars, and manufacturing establishments. The third edition is still mainly concerned with science, technology, and production. It is not a book of formulations, which are readily available elsewhere. Formulations without knowledge of principles lead to many errors, and recipes are given only where examples are necessary. Analytical methods are described only when they are not available in textbooks, of which there are many on standard methods of food analysis. Acknowledgments I am still indebted to many of the persons mentioned under "Acknowledgments" in the second edition. I am especially grateful to the following.

Editorial Review

Users Review

From reader reviews:

Earl Austin:

Have you spare time to get a day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity with regard to spend your time. Any person spent all their spare time to take a walk, shopping, or went to the particular Mall. How about open as well as read a book allowed Chocolate, Cocoa and Confectionery: Science and Technology? Maybe it is to become best activity for you. You already know beside you can spend your time along with your favorite's book, you can smarter than before. Do you agree with its opinion or you have various other opinion?

Anthony Brown:

Here thing why this particular Chocolate, Cocoa and Confectionery: Science and Technology are different and trusted to be yours. First of all reading a book is good however it depends in the content from it which is the content is as delightful as food or not. Chocolate, Cocoa and Confectionery: Science and Technology giving you information deeper including different ways, you can find any book out there but there is no reserve that similar with Chocolate, Cocoa and Confectionery: Science and Technology. It gives you thrill looking at journey, its open up your current eyes about the thing in which happened in the world which is maybe can be happened around you. It is easy to bring everywhere like in playground, café, or even in your method home by train. When you are having difficulties in bringing the paper book maybe the form of Chocolate, Cocoa and Confectionery: Science and Technology in e-book can be your option.

Carl Guerra:

Your reading sixth sense will not betray anyone, why because this Chocolate, Cocoa and Confectionery: Science and Technology publication written by well-known writer who knows well how to make book that can be understand by anyone who have read the book. Written inside good manner for you, still dripping wet every ideas and creating skill only for eliminate your personal hunger then you still doubt Chocolate, Cocoa and Confectionery: Science and Technology as good book not just by the cover but also by content. This is one guide that can break don't judge book by its include, so do you still needing a different sixth sense to pick this kind of!? Oh come on your studying sixth sense already alerted you so why you have to listening to another sixth sense.

Jean Fair:

As a university student exactly feel bored for you to reading. If their teacher requested them to go to the

library in order to make summary for some guide, they are complained. Just tiny students that has reading's internal or real their leisure activity. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading very seriously. Any students feel that reading is not important, boring along with can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Chocolate, Cocoa and Confectionery: Science and Technology can make you sense more interested to read.
