**Netter's Pediatrics E-Book (Netter Clinical Science)** By Todd Florin, MD  
Stephen Ludwig, Paul L. Aronson, Heidi C. Werner

Netter's Pediatrics, edited by Drs. Todd Florin and Stephen Ludwig, is a rich visual aid with more than 500 images by Dr. Frank Netter and other artists working in his style that will help you diagnose and care for children with common clinical conditions. This is the first time that Netter's drawings of pediatric illness are brought together in a single volume. The superb, accurate artwork accompanies up-to-date text contributed by physicians at the prestigious Children's Hospital of Philadelphia. The book provides you with all the at-a-glance information you need for a quick overview of common issues from nutrition, allergy, infectious disease, and adolescent medicine, to cancer and heart disease. This user-friendly, clinical reference is also a great tool for patient and staff education.

- Efficiently review key details for each condition with 500 detailed, crystal-clear images provided by Frank H. Netter and others working in the Netter tradition.
- Apply dependable, concise, clinical advice from a team of physicians at Children's Hospital of Philadelphia, one of the top children's hospitals in the U.S.
- Get answers at a glance during pediatric rotations when studying for exams or preparing for consultations.

## **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Dale Perez:**

Reading a guide tends to be new life style in this era globalization. With examining you can get a lot of information that will give you benefit in your life. Having book everyone in this world can certainly share their idea. Guides can also inspire a lot of people. Plenty of author can inspire their very own reader with their story as well as their experience. Not only the storyplot that share in the textbooks. But also they write about advantage about something that you need instance. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on earth always try to improve their talent in writing, they also doing some investigation before they write to the book. One of them is this Netter's Pediatrics E-Book (Netter Clinical Science).

##### **Steven Thomas:**

In this period globalization it is important to someone to obtain information. The information will make a professional understand the condition of the world. The condition of the world makes the information easier to share. You can find a lot of personal references to get information example: internet, magazine, book, and soon. You can observe that now, a lot of publisher which print many kinds of book. The actual book that recommended to you is Netter's Pediatrics E-Book (Netter Clinical Science) this guide consist a lot of the information in the condition of this world now. This kind of book was represented just how can the world has grown up. The words styles that writer make usage of to explain it is easy to understand. Typically the writer made some research when he makes this book. Honestly, that is why this book appropriate all of you.

##### **Paul Smith:**

That book can make you to feel relax. This particular book Netter's Pediatrics E-Book (Netter Clinical Science) was multi-colored and of course has pictures on there.
