The Elements of Reasoning By Ronald Munson, Andrew Black

THE ELEMENTS OF REASONING is a concise and lucid introduction to the basic elements of argumentative prose and the conceptual tools necessary to understand, analyze, criticize, and construct arguments. This text is not only perfect for a college course in argument analysis, but also as a reference tool when confronted with arguments outside the classroom experience. While THE ELEMENTS OF REASONING covers the standard formal tools of introductory logic, its emphasis is on practical applications to the kinds of arguments students most often encounter.

Editorial Review

Review

"I would adopt this textbook in a heartbeat for a class on critical thinking. I am impressed with how much is accomplished in a slim volume. The clarity of writing is one of the great strengths of this text."-- Elizabeth Meade , Cedar Crest College

"As a foundational guide to reasoning, Munson and Black's effort in this edition is commendable - well organized, filled with timely examples, and weighted with the clearest and most substantive content that I have seen in such a textbook."-- Jason Black , University of Alabama

About the Author

Ronald Munson is Professor of Philosophy of Science and Medicine at the University of Missouri-St. Louis and a nationally acclaimed bioethicist. After receiving his Ph.D. from Columbia University, he was a Postdoctoral Fellow in Biology at Harvard University and a Visiting Fellow at the Harvard Medical School. Munson has served as a bioethicist for the National Eye Institute and the National Cancer Institute, as an editor for the AMERICAN JOURNAL OF SURGERY, and as a member of the Washington University Human Studies Committee. Munson's other books include RAISING THE DEAD: ORGAN TRANSPLANTS, ETHICS, AND SOCIETY, THE WOMAN WHO DECIDED TO DIE: CHALLENGES AND CHOICES AT THE EDGES OF MEDICINE, REASONING IN MEDICINE, and ELEMENTS OF REASONING, 7e (with Andrew Black). He is also the author of the novels NOTHING HUMAN, FAN MAIL, NIGHT VISION, and THE HARVARD GAME.

Andrew Black was educated at University College, London, and University of Massachusetts, Amherst, from which he received his Ph.D. He taught at Dartmouth College and Southern Illinois University, Carbondale, and is currently Teaching Professor at University of Missouri-St. Louis, where he has taught since 1999. He has published in the areas of history of philosophy and epistemology and is the writer and presenter of the educational television series Great Philosophers.

Users Review

From reader reviews:

Nikki Jones:

A lot of people always spent all their free time to vacation or even go to the outside with them family members or their friend. Did you know? Many a lot of people spent they free time just watching TV, or playing video games all day long. If you need to try to find a new activity that is look different you can read any book. It is really fun for yourself. If you enjoy the book that you read you can spent 24 hours a day to reading a publication. The book The Elements of Reasoning it is very good to read. There are a lot of those who recommended this book. They were enjoying reading this book. Should you did not have enough space to deliver this book you can buy the actual e-book. You can more effortlessly to read this book from the smart phone. The price is not too costly but this book provides high quality.

Robert Hicks:

Playing with family in the park, coming to see the marine world or hanging out with close friends is thing that usually you might have done when you have spare time, then why you don't try point that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of knowledge. Even you love The Elements of Reasoning, it is possible to enjoy both. It is great combination right, you still would like to miss it? What kind of hangout type is it? Oh seriously its mind hangout folks. What? Still don't have it, oh come on its called reading friends.

Fern Barron:

As we know that book is very important thing to add our understanding for everything. By a reserve we can know everything we would like. A book is a range of written, printed, illustrated or even blank sheet. Every year was exactly added. This reserve The Elements of Reasoning was filled regarding science. Spend your spare time to add your knowledge about your scientific research competence. Some people has various feel when they reading a new book. If you know how big good thing about a book, you can truly feel enjoy to read a guide. In the modern era like today, many ways to get book that you simply wanted.

Wm Schroeder:

Do you like reading a book? Confuse to looking for your favorite book? Or your book had been rare? Why so many issue for the book? But just about any people feel that they enjoy intended for reading. Some people likes reading through, not only science book but in addition novel and The Elements of Reasoning or others sources were given information for you. After you know how the great a book, you feel need to read more and more. Science guide was created for teacher or perhaps students especially. Those guides are helping them to add their knowledge. In different case, beside science book, any other book likes The Elements of Reasoning to make your spare time considerably more colorful. Many types of book like this.
