## **Kant: Metaphysical Foundations of Natural Science (Cambridge Texts in the History of Philosophy)** By Immanuel Kant

Immanuel Kant was actively concerned with issues in the philosophy of natural science throughout his career. The *Metaphysical Foundations of Natural Science* presents his most mature reflections on these themes in the context of both his critical philosophy, presented in the *Critique of Pure Reason*, and the natural science of his time. This volume features a new translation which is especially clear and accurate, together with an historical and philosophical introduction and a guide to further reading.
