This guide to creating optimal connections with others is an excellent follow-up to **THE LAW OF ATTRACTION**, which sounded magical in the hands of voice pro Hugh Gallagher. In this production of his latest book, the author's lifeless reading is clear and sincere enough to not get in the way of the lesson--a sparsely worded primer on neuro-linguistic programming. It's well-organized instruction, full of detailed information on the three conditions for connecting effectively, the four communication styles, and many other ideas for improving communication with others. Though some may see the techniques as mechanical or manipulative, the audio will help many become more sensitive to other people's signals and work a little harder to connect with them effectively. The production includes printable worksheets and questionnaires.
