## Research Handbook of Entrepreneurial Exit (Research Handbooks in Business and Management series) By Dawn R. Detienne, Karl Wennberg

*'In this Handbook, two of the leading researchers in the field of entrepreneurial exit bring together a group of scholars who address the topic from a wide variety of vantage points. Taken together, this volume provides for a rich, multifaceted and comprehensive understanding of this important and hitherto understudied aspect of the entrepreneurial journey. It left me energized, inspired and full of ideas for researching the topic!'*

- Johan Wiklund, Syracuse University, US and Erling Persson Chair in Entrepreneurship, Stockholm School of Economics, Sweden

*'Some of the best and brightest minds from around the globe bring their newest thoughts and research evidence on the topic of entrepreneurial exit together in this Handbook. This is a critical read for scholars new to the research area, or those who want to know where the field might be headed in the future. The Handbook offers a great variety of topics, levels of analysis and perspectives in the area of entrepreneurial exit!'*

- Melissa S. Cardon, Lubin School of Business, Pace University, US

*'As a counterweight to the voluminous research on entry and growth, this book on entrepreneurial exit is both timely and valuable. Can we really gain a deep understanding of entrepreneurship without also considering exit? I could not think of two better people to create this book - Professors DeTienne and Wennberg have been instrumental in developing our collective knowledge on entrepreneurial exit and in this book, they have brought together a collection of chapters that offer many new and wonderful insights into entrepreneurial exit.'*

- Dean A. Shepherd, David H. Jacobs Chair in Strategic Entrepreneurship, Kelley School of Business, Indiana University Bloomington, and Editor-in-Chief, *Journal of Business Venturing*

With contributions from authors around the globe, *Research Handbook of Entrepreneurial Exit* explores this most important phenomenon in the entrepreneurial journey. The authors present a comprehensive review of the current issues in entrepreneurial exits, and provide theoretical and

methodological insights for future research.

Combining historical perspectives with contemporary thinking, this Handbook examines the following topics:

- Gender and Exit
- Retirement
- Psychological Barriers
- Emotional Aspects
- Venture Capital Funding
- Firm Relocation
- Exit from Social Ventures

Researchers and habitual entrepreneurs will find the data and case studies included useful, whilst educators can find the answers to 'why' and 'how' entrepreneurs exit their venture.
