Women's Lives, Men's Laws By Catharine A. MacKinnon

In the past twenty-five years, no one has been more instrumental than Catharine MacKinnon in making equal rights real for women. As Peter Jennings once put it, more than anyone else in legal studies, she "has made it easier for other women to seek justice." This collection, the first since MacKinnon's celebrated *Feminism Unmodified* appeared in 1987, brings together previously uncollected and unpublished work in the national arena from 1980 to the present, defining her clear, coherent, consistent approach to reframing the law of men on the basis of the lives of women.

By making visible the deep gender bias of existing law, MacKinnon has recast legal debate and action on issues of sex discrimination, sexual abuse, prostitution, pornography, and racism. The essays in this volume document and illuminate some of the momentous and ongoing changes to which this work contributes; the recognition of sexual harassment, rape, and battering as claims for sexual discrimination; the redefinition of rape in terms of women's actual experience of sexual violation; and the reframing of the pornography debate around harm rather than morality. The perspectives in these essays have played an essential part in changing American law and remain fundamental to the project of building a sex-equal future.

Editorial Review

Review

As an activist and legal scholar, MacKinnon has been a prominent force in feminism since the mid-1970s, when she pioneered the legal claim for sexual harassment. Her latest volume brings together 29 essays that show how the juridical legal system empowers men at the expense of women...MacKinnon offers thought-provoking commentary on a wide range of subjects, including the ERA, abortion, *Brown v. Education*, the history of sexual harassment law and the intersections of sexism with racial inequality and animal rights. (Publishers Weekly 2005-01-10)

MacKinnon's first collection of essays since 1987, is absorbing and important... Perhaps more than anyone else, MacKinnon has changed the way we use the law in America today. The essays here on rape, abortion, prostitution and harassment law make clear how, and it's intellectually exciting stuff...*Women's Lives, Men's Laws* is a compelling vision of how our use of law shapes inequality and how we might rethink it. (Jennifer Michael Hecht New York Times Book Review 2005-05-22)

Catharine MacKinnon brings several decades worth of writing and speaking on the role of women in law together in this collection of essays. *Women's Lives, Men's Laws* is a fascinating look at MacKinnon's vision of what law could be if it supported, or God forbid, promoted the rights of women in the court system. In essays on myriad topics such as the equal rights amendment (ERA), color and gender, the evolution of sexual harassment laws, *Brown vs. the Board of Education*, and even animal rights, MacKinnon makes the same point over and over again--that the law fails women, and change is too slow and not enough... *Women's Lives, Men's Laws* shows how the law can give women power if they know how to use it to their advantage, and encourages women to improve the law by getting their experiences included in the making and interpreting of laws. (Wendy Anderson BooksLut 2005-04-01)

The book contains much that is impressive, both intellectually and rhetorically, and it is instructive both about the history of MacKinnon's battles and about the issues. (Thomas Nagel Times Literary Supplement 2005-05-20)

Histories of American law in the late twentieth century will discuss the contributions of only two or three people who made major contributions to the law as scholars, not judges. Richard Posner is one. Catharine MacKinnon is another. *Women's Lives, Men's Laws*, a collection of her essays, many published before but some in hard-to-locate journals, shows why...Historians will grapple with MacKinnon's role in constructing contemporary law. Today's readers will benefit enormously from grappling with her claims about what that law is and should be--even, or perhaps particularly, the claims that for the moment seem off-the-wall. (Mark Tushnet American Lawyer 2005-06-01)

One mark of [MacKinnon's] status as someone taken very seriously in some very serious quarters is the fact that the current collection is simply that--not a book woven together from or built on older pieces, but a handy repository for some of MacKinnon's law journal articles, anthology contributions and speeches...*Women's Lives, Men's Laws* offers reminders of what she thinks sexual equality would look like and how she thinks the law might come to share in the creation of such equality despite having spread its protective arms around sexual inequality for so very long. (Elizabeth Spelman London Review of Books 2006-01-26)

[*Women's Lives, Men's Laws*] scope makes it an absorbing overview of MacKinnon's views on women's

inequality...Her perspective obviously recognizes and builds on the insights of the legal realism and critical legal studies schools, but MacKinnon makes the extraordinarily bold move to develop positive theory and practice of sex equality under the law. In this I think that she joins only a handful of contemporary theorists whose work goes beyond critique and offers a genuinely new way of talking and thinking about significant problems...MacKinnon is extraordinary in her willingness to tackle big, provocative questions about the nature of law, the requirements of justice, and limitations of legal discourse...It is rare for a collection of this type to offer genuinely new intellectual insights but *Women's Lives, Men's Laws* does just that. It is a significant addition to legal scholarship about equality and an important amplification of MacKinnon's vision for women's rights. (Rose Corrigan *Law and Politics Book Review*)

Women's Lives, Men's Laws is a powerful collection of more than two decades of Catharine MacKinnon's feminist legal scholarship. Perhaps MacKinnon's greatest strength in this compilation--in which she discusses a range of issues, from equality theory to sexual harassment to pornography--is her methodology. She truly builds her "theory out of women's practice, comprised of the diversity of all women's experiences." Her steadfast connection to the women upon whom and for whose benefit her theory is based can be credited for the richness and persuasiveness of her arguments. (Jennifer Denbow *Law, Culture and the Humanities*)

Review

The writings in MacKinnon's *Women's Lives, Men's Laws* continue to be excellent - fresh, concise and incisive. She has new things to say that will continue to enrapture and enlighten a large readership (and perhaps enrage others, many of whom perhaps never actually read her work). (Frances Elisabeth Olsen, author of *Feminist Legal Theory*)

About the Author

Catharine A. MacKinnon is Elizabeth A. Long Professor of Law at the University of Michigan Law School.

Users Review

From reader reviews:

Robert Beck:

Hey guys, do you wish to find a new book to learn? May be the book with the headline *Women's Lives, Men's Laws* suitable to you? The particular book was written by renowned writer in this era.
